SER0140045	Service Request - Yard issues on private propertySER0140045	This issue pertains not just to the address listed, but to the entire neighborhood, and likely many parts of Reno. Puncturevine, the plant responsible for "goatheads," is growing rampant in the neighborhood of W 7th St, both in people's yards and along sidewalks. Goatheads are a small, hard fruit with two wicked thorns, which can easily puncture tires, animal paws, and which embed themselves in the soles of shoes to be deposited elsewhere. A single plant can produce seemingly thousands of goatheads in a single season. I have made an effort this year to remove puncturevine plants that overgrow the new sidewalk along W 7th, but this is a problem that would require some coordinated effort across multiple years to abate. That said, I think getting puncturevine off the sidewalks is a very achievable goal, requiring little in the way	881 W 7th St, Reno, NV 89503	Closed	Code Enforcement	2026-08-15 12:32:30

		of public resources. Additionally, providing some public information to help people identify puncturevine could make a significant impact; I can say from experience that it's not easy to figure out where goatheads come from. There are a variety of weeds growing this time of year, and puncturevine goes from flower to seed very quickly. Many of the residences on W 7th are rentals, and consequently, there is a year-over-year turnover of residents. While renters may not feel responsible for yard maintenance, they might take it upon themselves to remove puncturevine if they are informed of its presence and consequences.

SER0140048	Service Request - Yard issues on private propertySER0140048	The house next door to me, 3045 Andrea St., Reno, is a rental. The back yard is full of very tall weeds. One, which is about 4 feet tall, is up against my fence. These particular weeds sprout roots, which have come into both my back and front yards and are ruining my lawn. The large roots sprout smaller ones and then new weeds pop up. I have contacted both the property management company, Chase, and the homeowner several times over the past few years with concerns about the home's upkeep, particularly the yard, to no avail. Last year, the property management company sent out a landscape company to pull the weeds in the homeowner's backyard and proceeded to fine the tenants for not taking care of the yard. These weeds were there long before they moved in, but have just taken over. The weeds need to be completely	Mile 9 Rte 659, Reno, NV 89503	Open	Code Enforcement	2026-08-15 13:30:55

SER0140201	Thursday, 8/13/2026 J Resort Festival ConcertSER0140201	Good morning, Please log this complaint. Last Thursday's (8/13/2026) concert at the J Resort once again created noise impacts on our neighborhood in the Sky Valley / Summit Ridge area. While downtown residents may or may not be affected due to the buildings and structures blocking or absorbing sound, up on our ridge the bass beats and voices are quite disruptive in and around our homes each time there is a concert of a night or two, or an entire long weekend. This was a weeknight, with the concert from about 8 p.m. to about 10:30 p.m. We may be the only resident who will still take the time to write or call, as most may have given up on submitting concerns. However, I want to keep these disturbances on the record on	345 N Arlington Ave, Reno, NV 89501	Closed	Code Enforcement	2026-08-17 11:28:33

SER0140222	245 E. Liberty St. Reno, NV - Elevator IssuesSER0140222	The elevators at the subject address frequently do not operate as they should. Too many issues to count, but I recommend they be re-inspected immediately. Today I entered the elevator (west), hit the 5th floor button and the doors closed, but the elevator did not move. It sat there....doing nothing. Fortunately the force-open door button worked, and I exited the elevator. Wasn't as bad as the time the elevator started to descend from the 5th floor before the doors even shut... Would have to recommend the elevators be replaced or drastically overhauled. 		August 16 regarding two trash bins that were brought to this location and left adjacent to the encampment. This is not a designated waste collection location, and there is no regular waste collection service along this section of Mill Street. I am concerned that the bins may accumulate trash and create odor and sanitation problems. Could you please have the bins removed or returned to their proper location? In addition, an individual has regularly slept at the Mill Street/Locust Street bus stop from approximately 9:00 PM to 6:00 AM, Sunday through Thursday, since September 2023. The bus stop bench was later replaced with a shorter one, but the situation has continued. As a nearby resident, I initially did not have concerns about this. However, recently I have noticed increasing

		camping and related activity around the bus stop and the adjacent 804 property. I am now concerned about sanitation, safety, and the possibility of the situation continuing to expand.					
		Could you please investigate these issues and take appropriate action, particularly regarding the encampment and removal of the two trash bins?

		corner area). If needed, I documented photos of these occurrences.					
		The attached photos are only for the current occupant, a licensed but inoperable RV with NV license plates "Classic Vehicle 810M." The reason for reporting it is that this area lies directly beside a major walking path. Both adults and children use this path to access the shopping center and other services in the area. I also informed the Tanamera maintenance supervisor that the male occupant (though I believe there is a couple living in it) was seen exiting the Tanamera property on his bicycle holding a large (3 or 4-foot-long) cylinder in his lap, seemingly a water tank or something similar. The Tanamera employee was concerned about the trespassing of this individual onto the private, gated property. The photos show a tow

		notation on the windshield. Wherever it had been, it was to be towed as of 8/7/26. I first took a photo of this vehicle in this location on 8/10/26, the tow strap laying on the ground, the left front (driver's side) tire gone and it sitting on the axle. That tow notation on the windshield has since been removed (washed or wiped off). The photos also show the Smith's semi-trucks parked up against the back of the vehicle, squeezing into the area as there were multiple trucks trying to unload. One driver gave me a thumbs-up sign when he saw me taking photos, presumably glad that something was going to be done. Why the Smith's management has not done something about this is baffling. Wherever it is coming from, the perpetual leaking combined with the warm temperatures has created a VERY slippery area directly next to the traffic barrier concrete pylon seen in the photos. It isn't possible to even step around it — you must step over it or on it. Sadly, although I have

		been stepping over it, my dog recently stepped on it and her leg went out from underneath her. She was saved from falling only by her tripod backup system, meaning three legs with paws on dry ground, giving her enough traction to not fall. Had she been a human with two legs, she would have gone down onto the concrete or even hit her body against the concrete post. This area next to this street barrier on the west end of the 1502 Big Valley Way (corner property) side yard and directly next to the Diamond Country neighbor's yard (which had an overflowing water box) is perpetually wet, even on non-watering days. Oddly, on the east end of that side yard near Big Valley Way there is a "gusher" that intermittently shoots water out of the ground and into the street at intervals (it will soak

		your leg if you aren't careful!), but the perpetual leak is directly next to the concrete post for the street barrier at the west end. In the attached photo with red circles, the upper circle is the gusher and the lower circle is the slippery section. As mentioned, there is also an overflowing water box west of that at the 1480 Diamond Country Drive property. Fortunately, today I was able to video the water box bubbling up due to the box being completely filled with water while the sprinklers were running. Though there may be separate issues at the properties (overflowing water box at Diamond Country and perpetual leaking and a gusher at Big Valley Way), the video shows just [Truncated]

Why no one has questioned it is very odd! We thank you for paying attention to this safety issue. I have warned other walkers to stay aware of it. Kindly, LD Attachments (6 photos) In order to send this successfully, I removed the video and took a still shot of the water box. SER0140735	8000 Offenhauser Dr- Lighting issues/ dead grass SER0140735	The reporting party states that the lighting at The Verge Apartments is consistently turned off after hours in the carport areas and stairwells, creating a potential safety hazard for tenants. There is also an ongoing issue with the sprinkler system, which appears to be malfunctioning and continuously discharging excessive water. This may be contributing to increased tenant water bills and creating an additional safety concern, as water is overflowing from the grassy area in front of the building. The reporting party states that property management is aware of these issues but has not taken appropriate action to correct them.
