# About Us

**High Fives focuses on preventing life-changing injuries and provides resources and hope if they happen.**

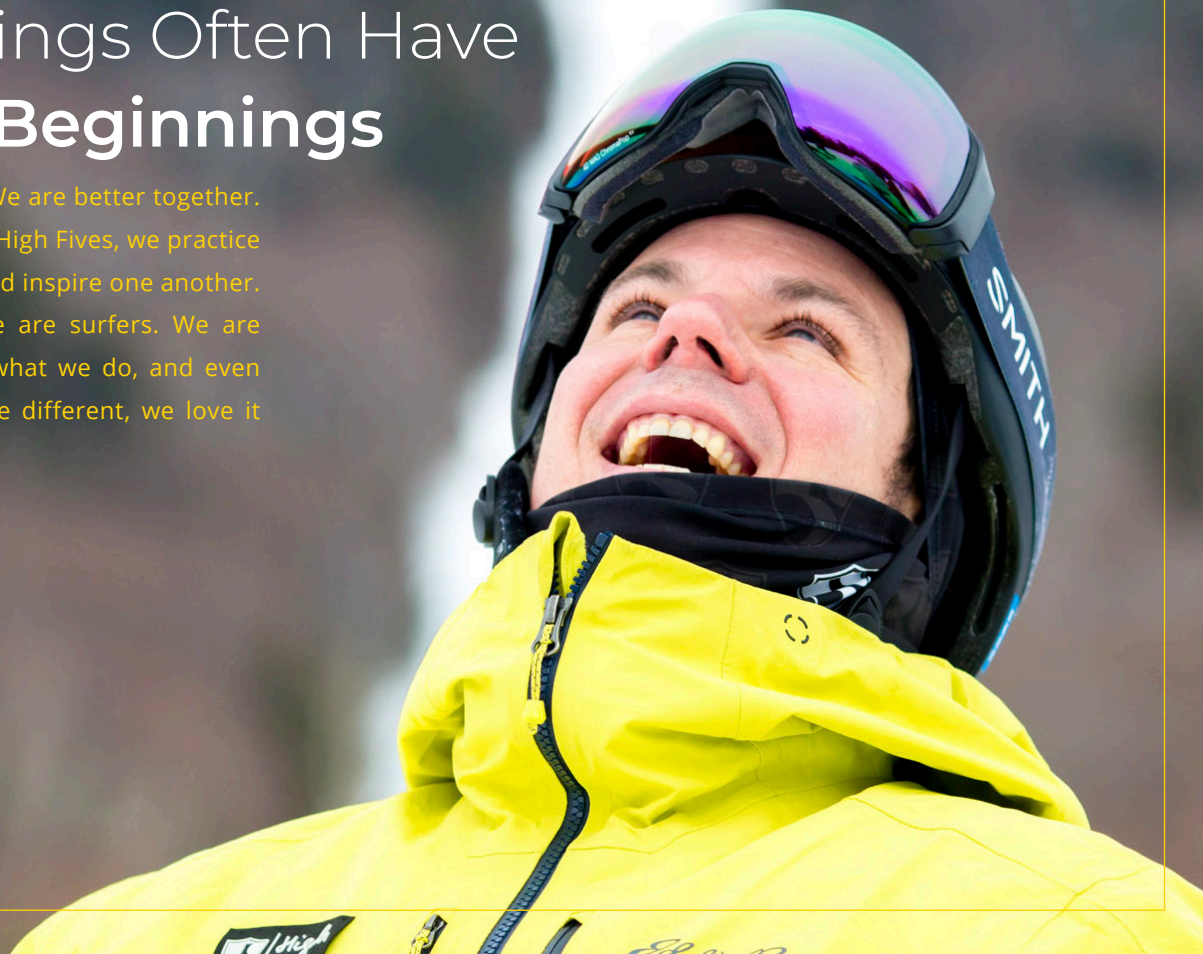

Our nonprofit organization is on a mission to provide hope and resources for athletes from all walks of life. We support our people and help them get back to their outdoor physical activity of choice from snowboarding and skiing to surfing and mountain biking and beyond. Physical disabilities resulting from a life-altering accident

and cognitive disabilities potentially resulting from a traumatic brain injury (TBI) are more than challenging but our Foundation has realized that recovery can be found in community. As a 501(c)3 non-profit organization, High Fives has helped countless injured athletes and Veterans get back to doing what they love. The Foundation aims to be the leader of education and recovery of life-altering injuries in outdoor action sports.

# Big Things Often Have Small Beginnings

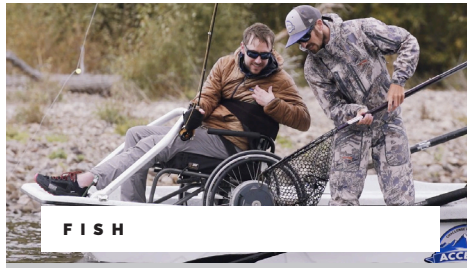

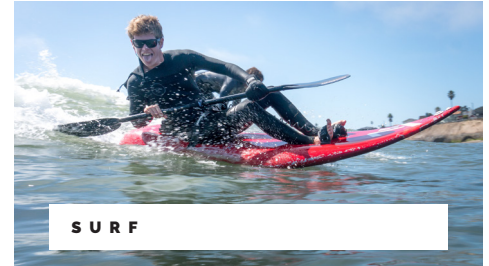

We are inclusive. We are better together.  
We are a team. At High Fives, we practice  
what we preach and inspire one another.  
We are skiers. We are surfers. We are  
anglers. We love what we do, and even  
though life may be different, we love it  
all the same.
