

# City Manager's Office

---

## MEMORANDUM

**DATE:** 6/12/2023

**TO:** Mayor and City Council

**THROUGH:** Doug Thornley, City Manager Approved Electronically

**FROM:** Calli Wilsey, Director of Policy and Strategy

**SUBJECT:** Council Member Home of Record Related to Redistricting

---

As adopted in May by the Council, the 2023 redistricting principles explain that the home of record/residence of current Council members with existing terms that extend beyond the 2024 general election will be retained within their ward during redistricting. This applies to the Council members that represent Ward 2 and Ward 4. Voters elected these two Council members in 2022 for four-year terms, with terms expiring in 2026.

During initial redistricting outreach efforts, participating community members asked where all the Council members reside. As this information is public record and in an effort to be transparent and responsive to the community in this process, staff will add an informational layer to the online mapping tool that identifies the Census block in which Council members reside based on the candidacy paperwork filed with the Reno City Clerk's Office. Staff will supplement the map with information on [Reno.Gov/Redistricting](https://reno.gov/redistricting) that details the principle as described above.
