

Office of the City Manager

MEMORANDUM

DATE: October 2, 2023

TO: Mayor and City Council

THROUGH: Doug Thornley, City Manager Approved Electronically

FROM: Trina Magoon, Utility Services Director

SUBJECT: Stormwater Utility Business Impact Statement

As you are aware, the initial Stormwater Utility Business Impact Statement (BIS) proposed \$13.46/ Equivalent Residential Unit (ERU). Based upon the public feedback received, a new approach was developed. The new BIS will propose:

- \$9.80/ERU except Damonte Ranch residents which will be proposed at \$8.50/ERU;
- A 60% discount for all Washoe County School District impervious surfaces in exchange for a student stormwater education program;
- Eliminating taxiways and runways from the ERU calculations for the Reno Tahoe Airport Authority; and
- A Low Income Assistance (LIA) program to be consistent with the City of Reno's sewer rebate program.

The BIS process will begin mid-October. The goal is to have the first and second ordinance readings in December 2023.
