SER0048358	Service Request - Zoning Issues with a BusinessSER0048358	<p>Kindly add this to files: SER0045784 + ENF4C02530</p> <p>Yesterday, Sat. April 27, 2024, a patient (maybe more than one - this is unknown) escaped from 2840 Sandestin Drive in the evening. I am not sure of the exact time the patient eloped, but as I was arriving home around 7:30 p.m. on Sat. April 27, I saw the child-patient being chased by what seems to be staff from 2840 (the person appearing to be staff is wearing teal pants - see the video).</p> <p>I guess now the instruction is to NOT call 911, RPD, RFD when these patients escape? There have been patients in and out of this facility - from the front door entry, to the side gate entry that my fence shares with this business. Are these patients allowed to roam in and out as they please?</p> <p>I have two videos of the April 27 elopement and return - one of the worker in the teal-colored pants chasing the patient after he escaped. The second is of the patient (black shirt) and others (maybe staff, maybe other patients who escaped / it's hard to tell WHO the patients are and WHO the workers are because they all look the same) walking back to the business.</p> <p>As you know this psychiatric residential treatment facility/business is a problem. I, and my neighbors, don't want to see/know these child-patients are escaping like this - and without any visible security measures, locks, etc. - coming in and out of this place as they please, or when they decide to elope/runaway. This is very scary and concerning for the neighborhood, especially for those of us that have kids.</p> <p>Will these escaped patients steal a car to get away from 2840? Will they harm someone trying to get away - someone in our neighborhood? A child or resident?</p> <p>Ever since I've connected with the City of Reno on this, not one public servant has come to the home when these things have happened. It is my assumption that there are instructions for the workers to</p>	2840 Sandestin Dr, Reno, NV 89523	Closed	Code Enforcement	2024-04-28 13:55:38	5

SER0048616	Service Request - Building - Vacant/Blighted/UnsecureSER0048616	The parking garage has some issues - it does not appear it is being maintained well. On April 27, 2024 at 9:29 pm the elevator jolted and stopped on the way up from floor 3 to 5. We used the elevator call button, the automatic reply stated the phone number was no longer in service. Trapped in the elevator, I began to feel unsafe; we called 911 for assistance; they indicated help was on the way. After about 12 minutes trapped in the elevator, the unit started up and took us down to the ground floor. As the doors opened we saw a huge line of people waiting for the elevator as the event across the street had just concluded. We informed those first in line that the elevator wasn't working right and we had been stuck in there for about 12 minutes. We then walked to the stairwell to walk up to the 5th floor. The stairwell had ALL manner of bodily fluids including what appeared to be blood smeared on most of the walls. At the 5th floor, the door to enter the parking area DID NOT HAVE A HANDLE. It was very difficult opening the door without a handle (picture is attached), I again felt unsafe at this time. I am hoping the safety controls will be inspected and fixed and the building owners be accountable for keeping it operational and representative of the City we want. It was a terrible experience and one a visitor wouldn't soon forget.	50 E Plaza St, Reno, NV 89501	Open	Code Enforcement	2024-04-30 10:54:49	5
