SER0057010	ConsultationSER0057010	Hello, I visited the Planning office at City Hall today to address concerns over perimeter and boundary issues with a mobile home park that a large part of my property is adjacent to. About two and a half to three years ago (2021?) a stretch of chain link fence (100+ feet) which parallels my lot was removed but never replaced. At the time I was not concerned since I simply assumed it was an upgrade and maintenance procedure. However after several months went by I began to realize that it was not being fully addressed, and certain nuisances began occurring with automobiles grazing my fence and causing damage. This chain link fence at least provided a foot or more of added protection to my lot. After a brief and unproductive consultation with the mobile home park manager I left the office without any type of assurance that the section of fence would be replaced even after I expressed my concerns. I have now decided after a few years, that my old fence is too fragile to be patched up, so I am replacing the whole 100+ foot section. Upon doing pricing research, it will be fairly costly a project, but more costly to repair after continued damage from autos or whatever after it is constructed. Several areas of the remaining chain link fencing that was connected to the removed sections display evidence of the same type of auto damage that still occurs periodically. At today's meeting with planning officials, I was told that your department will be notified and that someone will conduct an observation which will be delivered to the proper agency. This will enable an investigation to determine possible code requirements concerning commercial property boundary screening (fence) for the mobile home park perimeter. My name is James Coleman, my address is 3601 Rio Poco Rd, Reno, NV 89502. We purchased the home in June of 2006. The construction workers continually park in front of my house at 300 Kilborne Ave and up and down the street frustrating myself and my neighbors. This project was not very well planned regarding this issue. If I want to bring my RV home to load it I have no place in front of my house to do so. If I have friends or relatives over they have no place to park! This was a terrible project to begin with and you need to fix vehicles parking in my neighborhood."</p>		New	Code Enforcement	2024-07-10 09:52:03

SER0057171	Service Request - Sidewalk ObstructionSER0057171	Hi there! I am not sure about how long this as been going on for, but for the past few days when I leave a little before 7:00 am (so around 6:45/50 AM) right along Sky Vista Pkwy directly across the street from the stop sign at Crystalline there is a bush by the road on the side of the field area. I would assume it is a possible sprinkler burst or leak because water sprays a large stream up into the air and down onto the street. It goes away quickly later so it must be on a timer? I think it's possibly a burst sprinkler head. It does not cause any issues or anything, it's just water that sprays a large stream out of the bush and into the street, but just thought I should let somebody know in case they need to fix it and water the plants they intend on watering instead of just the road :)		Open	Code Enforcement	2024-07-11 07:19:44	4
