

SPRAY FINISHING

OPERATIONAL PERMIT INFORMATION SHEET

This Permit issued and accepted on condition that all provisions of the Codes now adopted, or that may hereafter be adopted, shall be complied with.

- All potential sources of ignition shall be protected against, including electrical, open flames and sparks, welding, powered industrial trucks, and any other source of spark or flame.
- The storage, use and handling of flammable and combustible liquids shall comply with Chapter 57 of the 2018 International Fire Code.
- Spraying areas shall be maintained free of combustible residue build-up. Residue shall be routinely cleaned and properly disposed of.
- Spray-finishing operations shall be conducted only in areas that have been approved during the plans checking process. Please note: limited spray areas are not to be used for spraying operations of a continuous nature.
- Mechanical ventilation must be kept in operation at all times while spraying operations are being conducted and for a sufficient time afterwards to allow residue to be exhausted. Spraying equipment must be interlocked with the ventilation system.
- Ventilation systems shall be maintained so that they operate in the manner they were approved during the plans review process.
- Articles being sprayed shall be positioned in a manner that does not obstruct collection of over-spray.
- Only fixed lighting units shall be used as a source of illumination.
- Fire protection systems shall be maintained and shall be interconnected to automatically stop the spraying operation, unless otherwise previously approved.
- Fire extinguishers for an extra high hazard occupancy shall be provided and maintained.
- Spray finishing facilities must comply with all applicable provisions of the 2018 International Fire Code, and NFPA 33. Additional requirements are subject to inspection and review.

The applicant accepts responsibility for the use of this Permit, in full compliance with the terms and conditions above, and additionally hereby to assume, pay and hold the City of Reno harmless for any liability arising out of the Permit. This Permit does not take the place of any license required by law and is not transferable. Any change in the use or occupancy of premises shall require a new permit.
